

NEW PRODUCT RELEASE

# Power Snake Canyon®

**Snake Tray®** is proud to announce **Power Snake Canyon®**, a patented under floor cable tray with an integrated power module. This all-in-one component provides not only a cable path but also up to 8 pre-installed power receptacles to meet your power needs while reducing the electrical construction costs of a project. **Power Snake Canyon®** is a modular cable tray that instantly installs to any access floor with a 30-second attachment system. No tools or hardware required.

*The **Power Snake Canyon®** system manages power from the main distribution panel to your enclosures in record time!*

- All-in-one cable management and power module system
- Provides up to 8 pre-installed power receptacles
- Installs to any access floor with a 30-second attachment system
- Movable and reusable
- Design allows for proper airflow under access floors
- Does not void floor manufacturer's warranty
